

I am actively pursuing a role in the realm of **software development around 5+ years** within a dynamic and stimulating environment. My goal is to contribute my skills, foster continuous learning, and apply my knowledge to enhance the overall excellence of the organization. Experienced with all stages of the development cycle for dynamic web projects. Strong background in project management and customer relations. I am willing to take any challenges that will come while performing my job and will work with honesty and dignity.
